FACTS!!

ABOUT CITY DIRECTORY CIRCULATION

The true value of advertising circulation is circulation consulted — "User Circulation."

To be exact by actual survey in twenty-four average American cities, by actual count, each city Directory averaged three and one-half consultations for each business day.

To be conservative we will eliminate the sixty Sundays and Holidays when no tests were made.

For every thousand Directories sold there is an average of three and one-half daily consultations for each book for three hundred and five days, therefore —

$1000 \times 3\frac{1}{2} \times 305 =$ **1,067,500**

Consultations or "User Circulation"

The City Directory offers the most Specific Point of Contact Advertising Known

INTRODUCTION

R. L. POLK & CO., Inc., publishers of more than 750 city, county, state and national Directories, present to subscribers and the general public, this, the 1940-41 edition of Boyd's Norristown Directory, which also includes Bridgeport and Jeffersonville.

Confidence in the growth of Norristown's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Norristown to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Norristown Directory will fulfill its mission as a source of authentic information pertaining to the community.

Five Major Departments

The five major departments are arranged in the following order:—

THE MISCELLANEOUS DEPARTMENT, pages 7 to 19, on white paper presents lists of borough, county, state and federal officials; post office Directory; statistical review; historical sketch; and manufacturing, trade and civic surveys.

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 21 to 401, on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Norristown and vicinity, and the name, official personnel, nature and address of each firm and corporation.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, covers pages 403 to 505. In this section the names of the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Three valuable features are included in this section. They are the designation of tenant-owned homes, the designation of the population of each house, and the listing of telephone numbers.

THE BUYERS' GUIDE, beginning opposite page 506 and separately paged from 1 to 20, on tinted paper, contains the advertisements of leading manufacturing, business and professional interests of Norristown and vicinity. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Norristown, the necessity of having this kind of information immediately available is obvious. General appreciation of this fact is evidenced by the many reference users of this Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 507 to 562, on yellow paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Norristown and vicinity.

The Norristown Directory Library

Through the courtesy of the publishers of the Norristown Directory, a Directory Library is maintained in the offices of the Norristown Chamber of Commerce, for free reference by the general public. This is one of more than 475 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the Directory as an advertising medium, with assurance that it will bring a commensurate return.

R. L. POLK & CO., Inc.,
Publishers.

NORRISTOWN

"GATEWAY TO VALLEY FORGE"

Statistical Review

Form of Government: Borough.

Population: Total, 35,853; males, 17,320; females, 18,533; American-born white, 82.4%; foreign-born white, 11.6%; colored, 6% (1930 U. S. Census).

Area: 3.54 square miles, or 2,265 acres.

Parks: 1, with 52 acres. Public squares have total area of 42,600 square feet. Borough maintains a zoo, with 232 different animals and birds.

Assessed Valuation: $23,000,000 (1939).

Bonded Debt: School, $1,525,000; Borough, $751,127.63 net.

Financial Facts: 5 banks, with deposits as follows: Demand deposits, $9,586,762.82; time deposits, $13,615,432.46; public funds, $1,749,887.39, U. S. Government and postal savings, $1,046,749.20; other banks, $346,003; Total resources, $32,995,639.44; trust funds, $38,200,909.01; Clearings, $22,565,695.10 (1939); personal debits, $116,577,395.79 (1939). 15 building and loan associations.

Telephones in Service: 9,905, with 5,166 lines.

Churches: 40, representing 20 denominations.

Real Estate: Number of homes, approximately, 7,750.

Industry: Many diversified manufacturing establishments, employing in normal times nearly 6,000 workers, with payroll of about $7,000-000 annually, and having products valued at $24,000,000 annually. Principal manufactured products: Asbestos and insulation products, bakelite products, batteries, boilers, bolt and nuts, boxes (paper and wooden), carpets and rugs, castings, cements, chemicals, coke, concrete blocks, drugs, farm products, feed, fibres, flags, foundry products, furniture, grain products, heaters, iron and steel products, machinery, magnesia products, men's shirts, nursery products, paper, power plant equipment, quarry products, radiators, rubber products, screws, tanks, tools, tubing, woolens and worsted cloth, and yarns.

Trade Area: Retail area covers nearly 1,400 square miles, with population of more than 150,000, 82,500 of whom are within 5 miles of municipal center.

Newspapers: 1 daily.

Hotels: 3. Latest built in 1925.

Railroads; 2: Pennsylvania and Reading, with 65 trains daily to and from Philadelphia. 1 electric railway, with 69 trains each way daily to and from Philadelphia. Buses connecting principal nearby points with Norristown.

Amusements: Stadium seats 5,000 persons. 5 theatres.

Hospitals: 3, with total of 225 beds.

Education: 12 public schools, comprising 1 senior high school, 2 junior high schools, 1 vocational school, 1 home economics school and 7 elementary schools, with total enrollment of 6,000 pupils, and with 233 teachers. Value of public school property, $3, 013,292. 4 parochial schools, with total enrollment of 1,569 pupils.

Public Libraries: 1, with total of approximately 48,000 volumes.

Borough Statistics: Total street mileage, 52, with 45 miles paved. Miles of sewers: Storm, 10½; sanitary, 35. Reservoir capacity of water works, 14,000,000 gallons; daily average pumpage, 5,000,000 gallons; miles of mains, 60. Fire department has 12 men, with 5 stations and 16 pieces of motor equipment. Value of fire department property, $500,000. Police department has 34 men, with 1 station and 3 pieces of motor equipment with two-way radio.

History

Norristown is the "Gateway to Valley Forge"—America's most sacred historic shrine. While no battles were fought on the present site of Norristown or the immediate vicinity both the contending forces of the Revolution marched over its soil. The founding of Norristown and its history are coincident with that of the state of Pennsylvania and the nation. The names of some of its streets, families and surrounding communities plainly indicate that the first settlers were Dutch, German, Swedish, Welsh and English, not a few of the latter being Quakers. The fine characteristics of the early settlers and the impressions they made can be traced to the present generation. Descendants of some of the early settlers still bearing the family name remain in this vicinity.

The town was laid out under the direction of the University of Pennsylvania, by William Moore Smith, who called it the "Town of Norris" in honor of Isaac Norris.

The land covering the present Norristown was conveyed to William Penn by Charles II on March 4, 1681, and was in settlement of 16,000 pounds (about $80,000) due the father of William Penn. On Oct. 2, 1704, William Penn gave his son, William Penn Jr., the township of Norriton, which included what is now the site of Norristown. It contained 7,842 acres and was called "Manor of Williamstadt." A few days later this tract was sold to Isaac Norris and Col. William Trent for 850 pounds. In the early part of 1712 Col. Trent sold his portion of the tract to Isaac Norris for 500 pounds and went to Trenton, New Jersey. Thus the two thriving cities of Trenton and Norristown preserved the names of their founders.

Isaac Norris was born in London, England, July 26, 1661, and came to this country in 1693 and settled in Philadelphia. He was prominent in public life, holding the positions of Justice of the Court, Mayor and Speaker of the Assembly. He never lived in Norristown or immediate vicinity and the naming of the settlement for him was undoubtedly due to his public activity and ownership of the land. Much of his estate descended to his son Charles.

Evidently speculation in land was carried on in those days. In order to settle the estate of Charles Norris, his widow offered at public auction 543 acres of what is now the center of Norristown and termed the "Norris Plantation." The price received was 4,270 pounds. A few months later it was sold for 4,600 pounds and five years later for 6,000 pounds.

The purchaser was William Smith, D. D. Provost of the University of Pennsylvania, or what later became that institution, and for its use the yearly rental from this tract and mills was "500 bushels of wheat or its value in currency." This institution conveyed to five persons for the sum of five shillings the lot upon which the present court house stands, to be held in trust to and for the County of Montgomery. It also laid out the public square, designating that it should be kept open forever.

Originally, Norristown was in Philadelphia County. Montgomery County was created in 1784, and the first business transacted was at an inn in Jeffersonville. The Legislature appointed a committee of five persons to procure land and build a court house and prison. The first court house was in the north corner of what is now the Public Square. The prison was on the site of the present Court House. These buildings cost about $21,000. A whipping post was in the rear of the jail. Swede Street was known as "Jail Lane."

In 1730, The Court of Quarter Sessions changed the name of "Manor of Williamstadt" to Norriton Township. In 1734, there were 20 landholders and tenants in the township, seven years later there were 25 taxables. Eighty-five years later this number had increased to 245.

In 1784, the "Town of Norris" had an area of 28 acres, with less than 100 inhabitants, county buildings, two stores, three taverns, a schoolhouse and about 20 dwellings. Norristown was incorporated as a borough, Mar 12, 1812. The area was 520 acres, with about 500 inhabitants. In 1812 to 1850, the population grew to 6,000 and the houses to 1,000. In 1853, new territory was added enlarging the borough to its present limit of two miles square.

There has never been anything of the mushroom characteristic about the growth of Norristown. For the last 75 years it has been steady, substantial and permanent. It is conservative in every respect. This applies to its commercial, industrial and financial institutions. These have multiplied, but with a solidity that made them permanent. The increase in population has been substantial and steady from year to year.

Norristown is the birthplace of Winfield Scott Hancock, a major-general of the Civil War. Gen. Hancock was a candidate for the Presidency in 1880, but was defeated by James A. Garfield. His burial place is in Norristown, not far from the spot where he was born.

John F. Hartranft, another son of Norristown, was chosen to lead the volunteers from his native town in the Civil War. He passed from one rank to another until he was made major-general.

The Indian Trail

Main St., the principal thoroughfare of the borough, like many in other places, is a development from an Indian trail in the dense forest. The trail evolved into a path, then the narrow cartway, the country road, the village street and finally a portion of the State highway system. Main St. was originally called "Egypt." The marking of Egypt Road is still visible on some of the old Main St. buildings.

The early settlements were generally made on high ground along rivers or streams, as these provided transportation. The Schuylkill was the name given to the river by the first Dutch settlers, and means "Hidden Stream." One can well imagine how nearly concealed this narrow stream was when it flowed through a tall, unbroken forest. The opening of the canal stimulated transportation. In 1829, 200 boats passed up and down the river. Passenger boats went from Reading to Manayunk. The "Commet" of Norristown made five trips weekly to Philadelphia.

Well-Balanced

The Industries of Norristown are well-balanced and diversified so that there are seldom abnormal depressions of employment. The steadiness of employment and low labor turnover and thrift of employees is shown by the $7,000,000 of assets of the 17 building and loan associations.
